Thank you for your support!

Our daughter Hania was born in February 2015 with a complex of congenital defects, including a chromosomal abnormality and numerous central nervous system defects, such as microcephaly. These conditions cause further complications, including delayed psychomotor and physical development as well as a cleft lip.

Hania remains under the constant care of many specialist clinics. She has already undergone a number of difficult surgeries and medical procedures, and many more are still ahead of her. She requires regular diagnostic tests, specialist treatment, and continuous, intensive rehabilitation that goes beyond public healthcare funding and our financial means. Hania needs round the clock care, which we do our very best to provide for her at home.

HELP US IN OUR DAILY STRUGGLE

By donating 1.5% of your income tax or making a donation to the Avalon Foundation with the note "BŁAZIK, 5479", you support us in our everyday fight.
