Thank you for your support!

Klara means bright and since her premature birth via urgent c-section, she has been a shining light in her parents life since December 2024. They knew prenatally that she would be born with multiple spine deformities but what came as a shock was her achieving 5 on the apgar scale within her first minute on earth. It turned out Klara was also born with esophageal atresia, a tracheoesophageal fistula, a VSD heart defect, paralysis of her vocal cord and also without her right ear. Even though doctors repaired her esophagus in her 3rd day on earth, Klara still has a long road to recovery with an extensive diagnostic process, rehabilitation as well as an ear operation ahead.

**Help our little ray of light on her road back to health.**
