Thank you for your support!

Hello,  
My name is Magda. I am 30 years old and I have found myself in a place I never expected to be. I have become a person with a disability – with no chance of recovery.  
I suffer, among other things, from Addison–Biermer disease and Alcock's canal syndrome. My disability is invisible – but above all, it is pain. Pain that has taken away my ability to live a normal life. To the point where I am unable to sit even for a few hours at a time. I never know when the pain will “strike” — pain that puts me in bed and against which nothing helps. I also never know when it will subside: after an hour, after one night, or after several days.  
I am under the care of a pain management clinic. The greatest relief comes from strong steroid nerve blocks, but I cannot receive them permanently. In practice, about 90% of household responsibilities have been taken over by my husband. I do not clean, I do not do the shopping, and I only cook occasionally.  
My illness has also taken away the possibility of practicing the profession I loved. Giving up my license to work as a midwife was a huge blow to me – it broke my heart. I lost my job because of the pain and I am unable to take on another one.  
In 2026, I will most likely undergo surgery to remove my coccyx – a long and difficult road lies ahead, along with rehabilitation and the risk of many complications. And this is not the only surgery planned for this year.  
This is only part of my health struggles. Instead of improvement, I have found myself in a place where I need the support of others.  
Therefore, if you have the possibility and willingness — please support me.
