Thank you for your support!

Twelve-year-old Nikoś has lived with autism and epilepsy since early childhood. Each day is a quiet struggle with fear, overwhelming stimuli, and a world that is often too difficult to understand. Therapy and constant specialist care give him a chance to function without fear.

Illness has also affected his siblings. Wiki is also on the autism spectrum, and doctors have additionally diagnosed her with a heart defect. Her fragile little heart keeps beating, but every medical check-up takes away her parents' peace and sleep.

Oliwierek has struggled since birth with a congenital kidney defect and ADHD. His childhood is spent between treatment and hospital corridors. In 2025, we received another diagnosis that froze our blood — an aortic aneurysm. Since then, our 10-year-old son has been under constant cardiac care and has been taking part in a research program. Every examination brings fear. Every wait for results is paralyzing.

Three children. One family. A daily life filled with the fight for health and the future.

We ask for your help.

For you, it is a gesture.

For us, it is hope, treatment, and a chance for a safer tomorrow.
